## Wedding Photography 2011

I have been photographing weddings in the Taunton area for over 30 years and my aim is always to provide you with the photographs you want, at a realistic cost, in a friendly and relaxed manner, whilst not monopolising your day.

Coverage normally begins at the wedding venue about half an hour before the service through to the beginning of the reception. Both formal and informal photographs are taken on the day having previously talked through your requirements at the studio.

Photographs are supplied at 8" x 6" or 10" x 8" size in a preview album. If you choose the *Wedding Album package* the photographs will be transferred into a choice of Wedding Albums, once friends and family have viewed them. *Preview Album only packages* may also be transferred later at an additional cost. Reprints are available from 7" x 5" upwards. Ready-framed photographs and Canvas prints can also be supplied. There is also an option to purchase a disc of your images. Your images will also be uploaded to a web-gallery for friends and relations to view easier.
